

ISO 14001:2004 & EMAS Internal Auditor

INTRODUCTION

This interactive two-day training programme aims to help delegates to understand and apply the principles and techniques that are required for conducting effective environmental audits. A good system of auditing is one of the most effective methods of ensuring that the Environmental Management System (EMS) continues to meet its objectives and for control and for identifying improvements. Auditors need to be sufficiently competent in order to evaluate the EMS effectively if the organisation is to achieve the full benefit from its EMS and have confidence that it is achieving its objectives. This IRCA registered course focuses delegates on the most important attributes of a modern and effective environmental management system and helps them to understand the role of the auditor in its development and continual improvement. It introduces delegates to business environmental issues and relevant legislative issues.

DURATION

2 Days, 09.00 – 17.15

WHO SHOULD ATTEND?

The course designed specifically for people engaged in environmental audits within their own organisation. It may also be useful for those people who are required to audit the EMS of suppliers or potential suppliers.

COURSE OBJECTIVES

To enable delegates to effectively plan, perform, evaluate and report the results of internal environmental audits with confidence.

COURSE CONTENT

- Environmental Issues
- Checklist development & use
- Environmental standards
- NCRs and categorisation
- Types of audit
- Auditor skills, protocols and techniques

WHAT ARE THE BENEFITS?

This course, combined with an ISO 14001 foundation course, satisfies the formal training requirements for those wishing to register with the IRCA as an Internal EMS Auditor. Successful delegates will be equipped with the technical skills and knowledge required to plan, conduct and report internal EMS audits. Delegates also find the interactive nature of the course, its challenging content and extensive use of team-based exercises an enjoyable and effective way to learn.

IN – HOUSE COURSES

Offering better value for money, they can be designed to closely match your specific requirements.

STYLE OF DELIVERY AND COURSE LEADERS

A combination of presentations and guided exercises and a highly interactive role-play exercise involving a simulated audit makes this course both highly beneficial and enjoyable for participants. Our course leaders are qualified and experienced environmental auditors with extensive practical management experience across a wide range of sectors including manufacturing, finance, pharmaceuticals, local and national government.

CERTIFICATION

Delegates successfully completing the course will be awarded an IRCA registered certificate.
